

Gowrie VICTORIA

Looking to Make the Most of Your School Readiness Funding?

Targeted coaching support for Victorian funded kindergarten programs.

We offer a suite of coaching packages that services can choose from, with the flexibility to tailor an approach that aligns with your goals, priorities and budget. Working alongside your team, we'll support you to develop practical strategies you can implement straight away, with ongoing support to embed change over time.

What a Coaching Program Can Include

- Flexible coaching, in-person or online, for individuals and teams
- Team Workshops
- Access to eLearning, webinars and digital resources on the Gowrie Learning Hub
- Communities of Practice on key focus areas
- Study Tours and demonstration sessions at Gowrie services
- Blended learning programs for flagship themes such as Understanding Children's Behaviour, Trauma-Informed Practice, and Creating Engaging Learning Environments.

Why Services Choose Gowrie

- Our coaches are practising early childhood professionals across metro and regional Victoria
- Every program is tailored to your service's budget, goals and current practice
- Strategies come from real Gowrie classrooms, not theory alone
- Ongoing support after the program ends.

Package Inclusions

Depending on the package, your coaching program may include a combination of the following elements. Set packages include specified components, while tailored packages are developed in consultation with your service to respond to your goals, priorities and budget.

Foundation Session

Your program begins with a guided discussion with your coach to identify your service's needs, clarify goals and establish a clear focus for your coaching program. Together, you'll agree on priorities and ways of working that support your team to achieve meaningful and sustainable outcomes.

Gowrie Learning Hub

As part of your coaching program, you'll have access to Gowrie's Learning Hub. This digital platform offers microlearning, self-paced flagship courses, webinars, practice videos, tools and curated resources drawn directly from Gowrie programs and practice across our services.

Online Coaching Sessions

Online coaching sessions are available via Zoom or Microsoft Teams. Working with your coach, you'll reflect on strengths, explore challenges and successes, and identify practical strategies to support professional growth and strengthen practice.

Face-to-Face Coaching Sessions

Face-to-face coaching combines observation, modelling, coaching in the moment and professional discussion. Coaches work alongside teachers and educators to understand your context, strengthen practice, support critical reflection and build capability within the team.

Whole Team Workshops

Customised professional learning sessions support the goals and priorities of your service. Workshops create opportunities for team collaboration, critical reflection and the development of a shared vision, and can be delivered online or at your service.

Study Tours at Gowrie

Join a half-day guided tour at one of Gowrie's Early Learning and Kindergarten services. Explore practice in action through observation, professional discussion and coaching aligned to your team's learning goals. Service may register two-four participants depending on your selected package.

Communities of Practice

Communities of Practice (CoPs) provide opportunities to connect with educators, teachers and teams about practice change, facilitated by an experienced Gowrie Coach. Through collaborative discussion and critical reflection, participants deepen their understanding of practice and identify strategies to strengthen and sustain improvement.

Do you have a number of services wanting to access Gowrie coaching Programs via SRF?

Have you considered pooling your funding to develop an organisational-wide approach?
